## BUSINESS TRANSACTIONS WITH THE COMPANY

**Business Office**—510 5th Street. Hours—8 A.M. to 5 P.M. except Sundays and Holidays. At other times calls for the business office will be answered by a representative who will handle business requiring immediate attention and who will arrange for the handling of other business on the following business day.

Bills which are issued monthly cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. They are due upon presentation. Payment may be made by mail or in person at the business office, or at the Coe Flower Shop, 2542 Lincoln Way.

Regulations and tariffs governing the furnishing of the various services by the telephone company are on file in the business office.

## GENERAL INFORMATION

**Service Can Be Suspended** at a reduced rate and your number retained when you are to be away from your residence for an extended period. No charge is made to re-connect service.

**Telegrams by Telephone**— You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill. You may also telephone your telegrams from public coin box telephones and pay for the message as you would for a telephone call.

**Telephone Directories**— The telephone company issues directories to assist it in furnishing prompt and convenient service, but it does not guarantee correct listings therein. The telephone company shall not be liable for damages arising out of errors in or omissions from its directories. As a matter of good service, the telephone company retains ownership of telephone directories. No binder, holder or auxiliary cover, except such as may be provided by, or with the consent of the Telephone Company, shall be used in connection with any directory furnished by the Telephone Company.

**Telephone Attachments**— Attachment of auxiliary apparatus to telephone instruments generally interferes with service. Therefore, we request you to refrain from attaching any devices, not supplied by the Company, to the telephone instrument or other equipment. For the same reason, we also request that no advertising devices be attached. The telephone company reserves the right to remove all such apparatus and devices.

## LONG DISTANCE CALLS

**To Make a Station-to-Station Call** — Give the "Long Distance" operator the name of the town and the telephone number or street address of the person you are calling. A station-to-station call is one on which you will talk with anyone available at the telephone called. Charges begin when the number called has been answered and are based on an initial period of three minutes. Station-to-Station calls cost less than Person-to-Person calls.

**To Make a Person-to-Person Call** — Give the operator the town, the name of the person you want, and his telephone number or street address. Charges begin when the calling person speaks to and receives a response from the called person and are based on an initial period of three minutes.

**Reduced Rates** are in effect between 6 P.M. and 4:30 A.M. each week day and at all hours on Sunday, on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls, and in general, 50 cents for Person-to-Person calls.

**To Reverse the Charges** notify the operator when you place the call. There is no extra cost, except on Station-to-Station calls of 20 cents or less for initial period which take a higher rate when sent collect. When placing a collect call, the operator will ask the person you are calling if he will pay the charges.

**Long Distance Conference Service** permits connection to your telephone line of persons in different cities so that each can talk with the others. Just call "Long Distance" and ask for the Conference Operator.

**International Telephone Service**— Information on availability of telephone service to points in other countries and the rates applicable thereto may be obtained by calling "Long Distance." Some typical weekday rates for a three minute call are: To Argentina, Australia, Denmark, Italy, United Kingdom, \$12.00; Costa Rica, Dominican Republic, Colombia, Venezuela, and the U. S. S. R., Haiti, and Hawaii \$9.00; to Bahamas, Puerto Rico, Virgin Islands, and Bermuda \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

**Telephone Recording Signal**—A short high "beep" tone heard at 15 second intervals indicates your conversation is being recorded. The signal is provided by the telephone company for your protection. If you do not want your conversation recorded ask the person with whom you are talking to disconnect the recording machine. Use of a recorder without a signal is unlawful.

# Good telephone service for party liners...

Party-line service is *good* service when those on the line co-operate to make it so. Here are some of the things you can do to get the greatest value from your party line:

- 1—When you have several calls to make, allow a little time between them. That gives others on the line an opportunity to make or receive calls.
- 2—If the line is in use when you try to call, hang up quietly. Wait awhile before trying again.
- 3—If you have children, teach them party-line courtesy, too.

Your courtesy and consideration will encourage others on the line to follow your good example. When everyone is trying to co-operate, everyone has better service.

## Postal Information

Postal information usually shown in this section has been omitted in this issue due to changes in Postal Regulations which were not available at the time this directory was printed.

## *Tips To Party-Liners*

*The Golden Rule* is the  
**BEST RULE ON PARTY LINES . . .**  
**GIVE THE OTHER FELLOW A CHANCE.**  
**PLEASE DON'T TALK ANY LONGER**  
**THAN IS NECESSARY. *Such co-oper-***  
***ation means BETTER SERVICE for all.***

# Ames Civic Information

## Historical

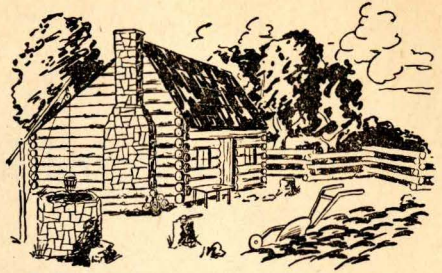

The land upon which the village of Ames was later established was originally purchased from the government by Mrs. Cynthia O. Duff. On November 26, 1864 this property was deeded by Mrs. Duff to John I. Blair and in July, 1864 the first settlement was made and the Cedar Rapids and Missouri River Railroad (now the Chicago and Northwestern Railway) was built west to this community.

In 1865, The John I. Blair Land Company laid out and platted the original town of Ames, consisting of twelve blocks located north of the Chicago and Northwestern Railway Company's right of way; and between Duff Avenue on the east, Burnett Avenue on the west, and Eighth Street on the north.

The settlement was named in honor of Oakes Ames, a Massachusetts Congressman, who was financially interested in the building of the, then, Cedar Rapids and Missouri River Railroad. Congressman Oakes Ames donated a church bell to the Congregationalists in honor of their erection of the first church in the town. There are now 20 churches in Ames with many other denominations holding services in special halls and in Memorial Union.

In 1866 Ames was successful in its struggle with Nevada, the county seat, for the location of the "narrow gauge" railroad to Des Moines. This railroad known as the Iowa and Minnesota Railroad was not completed until 1874. Later in the Seventies, this railroad was extended north into Hamilton County to a prairie station, called Callahan, long since abandoned. The railroad after being operated for several years was purchased by the Chicago and North Western Railway Company and widened by them to standard gauge.

In 1859 the citizens of Story County voted \$10,000.00 in bonds and assisted in raising an additional \$11,000.00 in cash and land to secure the location of Iowa State College of Agriculture and Mechanic Arts. The first legislative appropriation for buildings was made by the state in 1864. The school was formally opened on March 18, 1869, with A. S. Welch as Pres-

ident. The present total value of land, buildings and equipment of Iowa State College is about \$17,500,000.

Ames was incorporated as a village in 1870 and became a city of the second class on November 13, 1893. Results of the 1950 census placed Ames as a city of the first class with a population of 22,898, including college students. At the time of incorporation in 1870, there were 656 residents.

Ames is located in Story County, close to the geographical center of Iowa, 33 miles north of the State Capital, Des Moines. The city is at the junction of two major transcontinental highways—U. S. 30 and U. S. 69, and is on the main line of the Chicago and Northwestern Railroad. Bus service is provided in the city by the Midwest Transit Company and out of the city by the Greyhound and Jefferson Bus Lines. Air service is provided by the Howard Flying Service and the Midwest Airlines, Inc., located at the Municipal airport.

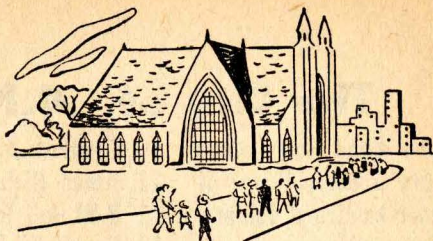

Ames has a city daily newspaper published 6 days a week, a student daily newspaper published 5 days a week, two radio stations, KASI and WOI, and one television station, WOI-TV.

Many state and federal institutions and offices are located here, among which are the Iowa State College, the Iowa State Highway Commission, Iowa Agricultural Extension Service and Soil Conservation Service.

Among recreation facilities in Ames are 4 theaters, 1 drive-in theater, 2 athletic fields, 2 field houses, 2 gymnasiums, 3 golf courses, 3 swimming pools, 3 bowling alleys, 1 skating rink, 1 billard parlor, the Ames Golf and Country Club, the Ames Municipal Airport with its midget racer track, 166 acres of park area and hundreds of public events annually—music, lectures, dramatics, athletic and social events.

## Some Facts About Ames

**ALTITUDE**—922 feet above mean sea level.

**AREA**—3,974 acres within corporate limits.

**ASSESSED PROPERTY VALUATION**—\$17,593,722.00 (June 30, 1951).

**BANKS**—Three with deposits of \$17,324,386.14 (June 30, 1951).

**BUILDING & LOAN ASSOCIATION**—One with resources in excess of \$3,993,359.27 (June 30, 1951).

**CHURCHES**—20 churches serve the needs of many different faiths. A list of churches will be found classified by denominations in the Yellow Section of this directory.

**CLIMATE**—Average annual precipitation in inches, 30.75. Average annual snowfall in inches, 24.5. Average annual temperature (degrees Fahrenheit) 48.7.

**COLLEGES**—Iowa State College. Enrollment 7,250.

**GOVERNMENT**—Council Manager Plan with City Manager, Mayor, and Six Councilmen, one for each of four wards, two at large.

**HIGHWAYS**—U.S. No. 30 and U.S. No. 69.

**HOSPITALS**—Mary Greeley Hospital. Rooms, 49. Bed capacity, 77.

**HOTELS**—Two hotels with 149 rooms and accommodations for 298 people.

**LIBRARY**—Ames City Library with one branch. Total volumes, 31,862, circulation 110,308.

**MOTELS**—Eight.

**NEWSPAPERS**—Ames Daily Tribune and Iowa State Daily.

**POPULATION**—Official 1950 census including college enrollment, 22,898.

**POST OFFICE RECEIPTS**—1950, \$314,359.02.

**PUBLIC UTILITIES**—Telephones in Service, 7,215. Meters in Service: Gas 3,991; Electric, 5,900; Water, 4,052.

# Good telephone service for party liners...

Party-line service is *good* service when those on the line cooperate to make it so. Here are some of the things you can do to get the greatest value from your party line:

- 1—When you have several calls to make, allow a little time between them. That gives others on the line an opportunity to make or receive calls.
- 2—If the line is in use when you try to call, hang up quietly. Wait awhile before trying again.
- 3—If you have children, teach them party-line courtesy, too.

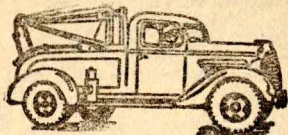

Your courtesy and consideration will encourage others on the line to follow your good example. When everyone is trying to cooperate, everyone has better service.

Keeping telephone service to your liking calls for millions of dollars worth of equipment and millions of dollars in wages for the thousands of telephone workers needed to make it function.

## DEPENDABLE

At all hours, in all kinds of weather, she's at her post. You count on her and she's proud of it.

With switchboards busier than ever because of many more telephones, hers is still "The Spirit of Service." More telephones are being added right along.

Our constant aim is to provide more and better service . . . always at the lowest possible cost . . . to give greater value to every telephone user.

## SECURITY

In the dark silence of  
night, there is one light  
forever burning — one  
voice that is never  
stilled. That light is the  
light in your telephone  
exchange. That voice is  
your telephone.

## POCKETBOOK VALUE *of your telephone*

No matter how important your call may be, you can hardly measure its full value by your pocketbook.

If we were to charge according to time, effort and steps saved—increased efficiency, or happiness or safety gained — few could afford telephones.

Actually, the cost of your call probably is only a few cents—and that's the remarkable thing about phone calls. Some are worth a lot—all cost so little.

But the price you pay must be enough to let us meet our obligations to all concerned — employees, investors and you.

Don't forget  
**TELEPHONE CONDUIT**  
when you plan your home

With modern building methods and materials,  
it is usually impossible to "fish" telephone  
wires through walls, unless provision is made  
for those wires while the house is being built.  
Ordinary conduit can be used to provide your  
new home with concealed telephone wiring.

For more information, talk to your architect  
or builder or visit our Business Office.

## RESEARCH

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly over the telephone today than ever before.

This telephone company, as a member of the Bell System, passes on to its customers the better service this research makes possible.

These Yellow Pages are full of information that will help you fill everyday needs and meet emergencies.

## YOUR Telephone Service is "Made to Order"

Your call may be to your next door neighbor, or to someone thousands of miles away. Every call is made to order to meet your need of the moment.

It takes a lot of people and a lot of equipment to handle your telephone calls. Your telephone instrument is only about six per cent of the equipment needed to give you service. The other 94% is buildings, switchboards, wires, cables and other apparatus—ready 24 hours a day, every day—to serve you.

## TUBES FOR LONG DISTANCE

Thirty years ago the first effective high-vacuum tube for amplifying electric currents was made in Bell Telephone Laboratories.

Developed and refined by constant Laboratory research and made in quantity by Western Electric, today more than 1,250,000 such tubes are at work for Bell System telephone users in clear long distance speech.

The Bell Telephone System now furnishes service to more than 36 million telephones or nearly half of all in the world.

# Helpful tips on long distance calls

1. Give the operator the name of the town you are calling and the telephone number, if you know it . . . otherwise, the name and address.
2. If it's a station-to-station call, say "I'll talk to anyone who answers."
3. Wait for the operator to ask for your number . . . and remain at the telephone unless the operator says she will call you.

How Fast  
should you speak  
over the telephone?

Over the telephone it's especially important to speak slowly and distinctly. The listener does not have the help of watching your expressions and gestures as when face to face.

It helps to prevent talking too fast when you speak clearly in your normal conversational voice.

A handy list of out-of-town telephone numbers kept near your telephone will help to speed up your Long Distance calls. For faster service, call by number.

## BIG IN VALUE

### ...LITTLE IN COST

There is no way to reckon the full value of the telephone.

It helps with the shopping — runs downtown — calls a doctor — provides unlimited capacity for friendship, success and good times — enables every business to do more business, and do it better.

A fair price for telephone service is one which allows us a reasonable profit — one which will attract the millions of investment dollars still needed for improvement and expansion.

**POCKETBOOK VALUE of your telephone**

No matter how important your call may be, you can hardly measure its full value by your pocketbook.

If we were to charge according to time, effort and steps saved—increased efficiency, or happiness or safety gained — few could afford telephones.

Actually, the cost of your call probably is only a few cents—and that's the remarkable thing about phone calls. Some are worth a lot—all cost so little.

But the price you pay must be enough to let us meet our obligations to all concerned — employees, investors and you.

NORTHWESTERN BELL TELEPHONE COMPANY

# IOWA STATE COLLEGE

## Telephone Directory

**FROM AMES TELEPHONES CALL 2500**

### Emergency and Special Calls

**FIRE** (to report a fire) from 7:30 a. m. to 10 p. m. except Sundays 9 a. m. . . . . Dial "O"  
(At all other hours dial "9" and call "Fire Department")

**LONG DISTANCE**—from 7:30 a. m. to 10 p. m. except Sundays 9 a. m. . . . . Dial "O"  
(At all other hours dial "9" and ask for "Long Distance")

### Use of the Dial Telephone

After obtaining the correct number from the directory, remove the receiver and listen for the dial tone. It is a steady humming sound which lets you know that the central office equipment is ready to receive your call.

#### How to Dial

Dial each figure of the number you are calling in the order shown in the telephone directory.

Take, for example, the dialing of telephone number 763. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "7" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures "6" and "3" may be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

#### Service Signals

**Ringling Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

Should you hear neither of these signals after dialing, dial "0" and tell the operator of the condition.

#### Calling From College Telephones

**To Other College Telephones**—To call another telephone connected with the college

telephone system, lift the receiver and upon hearing the dial tone, dial all three figures of the number in the order in which they appear in this section of the directory.

**To Outside Telephones**—To make a call to a telephone not connected with the college telephone system, lift the receiver from the hook and upon hearing the dial tone, dial the figure "9." Give the number of the telephone you wish to reach to the operator who answers.

#### Calls From Outside Telephones

To call a college telephone from telephones not connected with the college telephone system, telephones without dials, call 2500. Give the number of the college telephone you wish to reach to the college operator who will answer and handle your call. Numbers of college telephones are listed in the following pages.

#### Night Calls

The college switchboard is closed from 10 p. m. to 7:30 a. m., except Sundays 9 a. m.

During these hours see the instructions and night number list on page 15.

#### Non-Listed Numbers

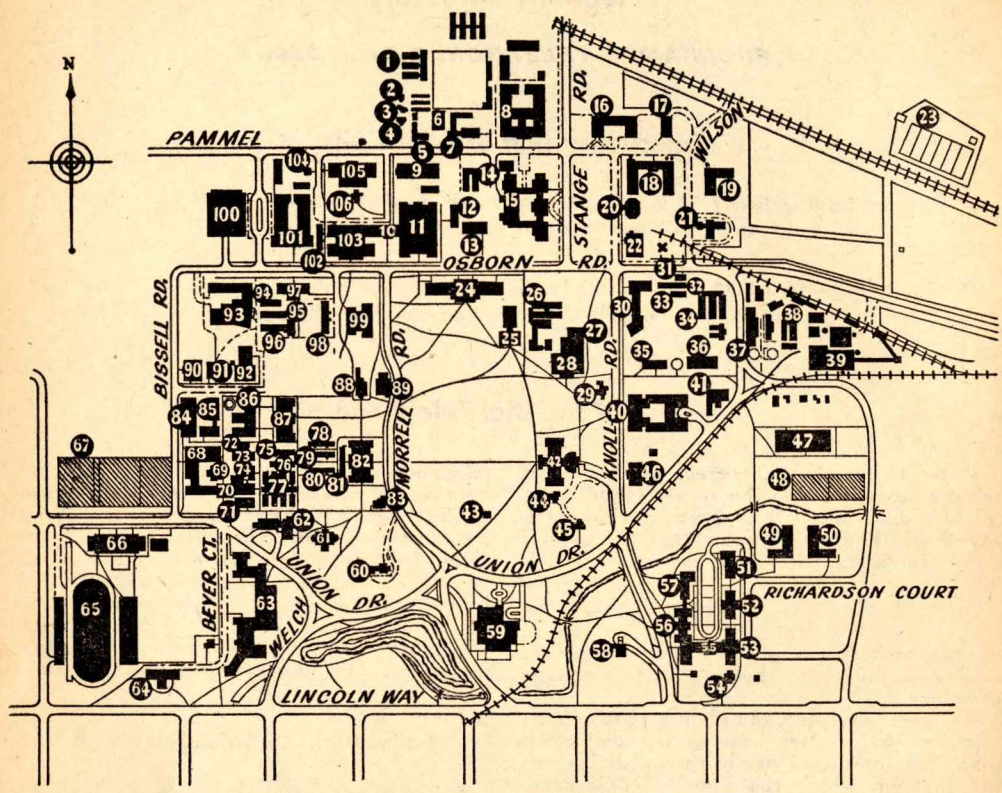

College telephone numbers added or changes made too late to be included in this directory will be furnished by the college operator. She may be reached from college telephones by dialing "0" and from "outside" telephones by calling 2500.

#### Directory and Service Changes

All changes in telephone service or directory listings for college telephones should be handled through the Iowa State College Business Office.

**Be quick** to answer  
when your telephone  
rings.

**Be slow** to hang up  
after you've placed a  
call . . . give them  
time to answer.

**Be sure** you replace the  
receiver when you're  
through talking.

Your co-operation will help everyone  
get good telephone service.
